

SATCOM FORUM 2025

Date: 09 September, 2025
09:30 – 16:00

Venue: Uni-Center, Festsaal B, JKU University Linz
Altenberger Straße 69
4040 Linz, Austria

Today's satellite communication is completely transformed by new mega constellations using low and medium earth orbits. These constellations attract a lot of interest due to the recent geopolitical situation.

The requirements for the necessary ground segment, such as user terminals suitable for mass production, are demanding and difficult to implement, especially if a purely European solution is preferred.

Our forum is dedicated to this topic and offers companies the opportunity to leverage our network and participate in upcoming research projects.

Let's connect to ensure a sovereign satellite communication for Europe!

Agenda:

- 09:30 – 10:00 Registration
- 10:00 – 10:10 Opening
- 10:10 – 10:30 Introduction to SAL Division "Intelligent Wireless Systems"
- 10:30 – 11:10 Research Spotlight: "5G-aNTeNna" project
- 11:10 – 12:10 Innovation Talks: TechniSat | Infineon | EnSilica
- 12:10 – 13:00 Networking Lunch
- 13:00 – 15:00 Innovation Talks: Joanneum Research | Terma Technologies | AT&S | VITES
- 15:00 – 16:00 Coffee & Networking
